# **DETAILED ACTION**

#### Response to Arguments

Applicant's arguments with respect to claims 32 and 37 have been considered but are moot in view of the new ground(s) of rejection.

# Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 32 and 37 are rejected under 35 U.S.C. 102(b) as being anticipated by Bartos et al. The fluid inlet is readable on element 12 and the main fluid passageway is readable on elements 20 and 32. Element 32 is readable on the internal chamber. The main valve is readable on elements 3 and 10 and the secondary valve is readable on elements 4 and 4a-c. Element 28 is readable on the main valve seat. The secondary fluid passageway is readable on elements 34, 36 and 38-39 and the secondary valve seat is readable on the non-referenced part on element 2 that valve head 4a seat on as shown in figure 2. The outlet opening is readable on element 30. Also, the spring is readable on element11 that forces the valves member away from its valve seat 28.

### Allowable Subject Matter

Claims 2-30, 33-36 and 38-42 are allowed.

#### Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to George L. Walton whose telephone number is 703-308-2596.

Application/Control Number: 10/657,592

Art Unit: 3753

The examiner can normally be reached on M-F, 8:00-4:30. If attempts to reach the examiner by

Page 3

telephone are unsuccessful, the examiner's supervisor, Dave Scherbel can be reached on 703-

308-1272. The fax phone number for the organization where this application or proceeding is

assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
